

# DHLC

Dutch Heavy Lift Consultants B.V.

Dutch Heavy Lift Consultants (DHLC) is a dynamic company situated in the centre of The Netherlands. We provide reliable innovative solutions and support to clients from various industries, facing challenges in the field of heavy lifting and exceptional engineering. We are proud of our accumulated experience and view every assignment as an opportunity to improve.

Innovation, sustainability and reliability we consider key performance indicators. These three aspects are interwoven into all of our products. We consider ourselves privileged to be invited into environments where leaders aim to surpass existing technology in order to responsibly achieve a cleaner and healthier planet.

For more information or questions please contact Dutch Heavy Lift Consultants.
